Online Safety

Dear Parents/Carers

We have received a Safeguarding Alert from Merseyside Police informing us about an Online Safety Risk.

Please be aware of a WhatsApp group circulating called ?Add Everyone You Know?. This is encouraging young people to add all of their phone contacts to this group. Inappropriate images have been shared on this group.

The police felt that it was necessary to alert parents/carers to help to safeguard your son/daughter.

We speak to the children on a regular basis about the risks of sharing personal information online . If your child goes online, please remind them of the importance of having their settings on private and not to add people they don't know on any social media groups.

Thank you for your support.

Yours sincerely,

Mrs Coyle
Assistant Head Teacher
