Dear Parents and Carers,

In Reception, we provide a wide range of continuous provision activities to support the children's independence, creativity, and learning across all areas of the curriculum.

As you are aware, budgets across England for schools are significantly stretched, making it hard for us to always resource things like this as a school.

To help us continue offering engaging and high-quality provision, we are kindly asking for donations of resources. Items that would be particularly useful include:

- Loose parts (e.g. buttons, beads, natural materials, small objects for sorting and creating)
- Water play equipment (containers, pipettes, funnels)
- Sand resources (tools, moulds, measuring items)
- Puppets and role play items
- Paint brushes, sponges, and art materials
- Spray bottles
- Any other safe and reusable materials that could support imaginative play

Your contributions make a real difference in enhancing the children's learning environment. Please speak to staff if you want to ask what specific resources they may require to enhance learning.

Thank you very much for your support.

Kind regards,
Mrs Sefton
EYFS Lead
